

How many animals
are part of this
network?

What is the number
of interactions
(edges) in the
network?

How many animals
lie on the shortest
path between **Siena**
and **Kaia**?

How many animals
lie on the shortest
path between **Della**
and **Selah**?

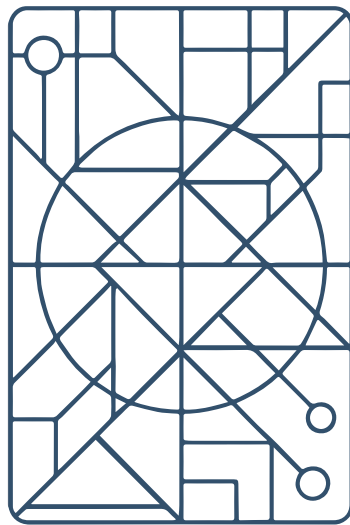

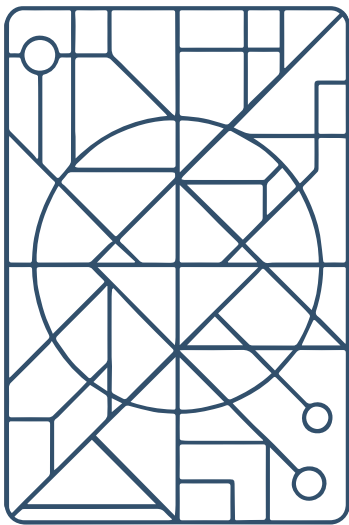

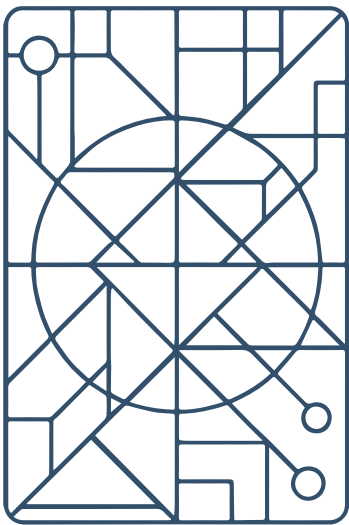

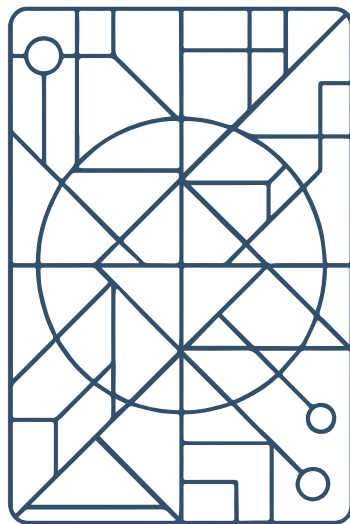

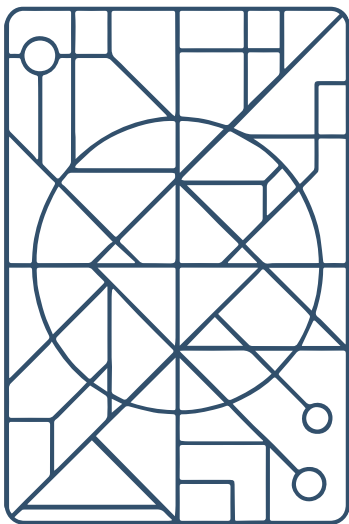

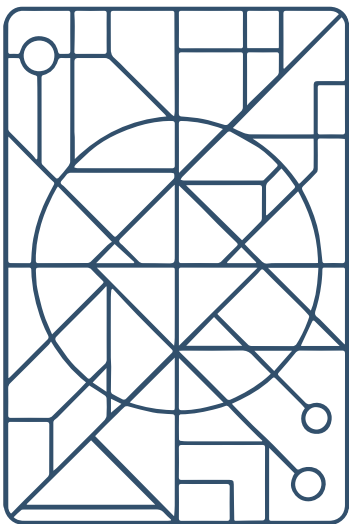

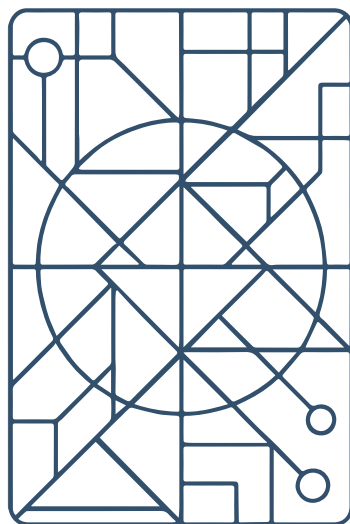

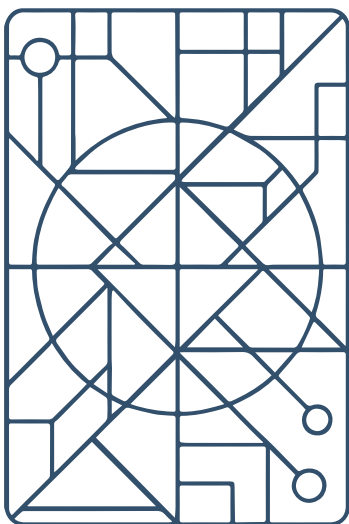

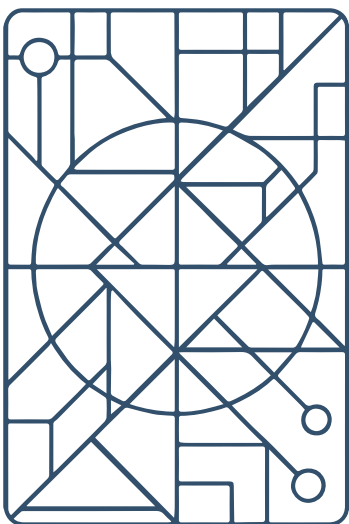

How many animals
lie on the shortest
path between **Cohen**
and **Otis**?

How many animals
act as bridges in the
network?

How many animals
are common
neighbors of **John**
and **Rhett**?

How many animals
are common
neighbors of **Zoey**
and **Cohen**?

How many animals
are common
neighbors of **Hazel**
and **John**?

How many animals have the highest number of interactions?

What is the highest number of interactions in the network?

How many animals have the lowest number of interactions?

What is the lowest number of interactions in the network?

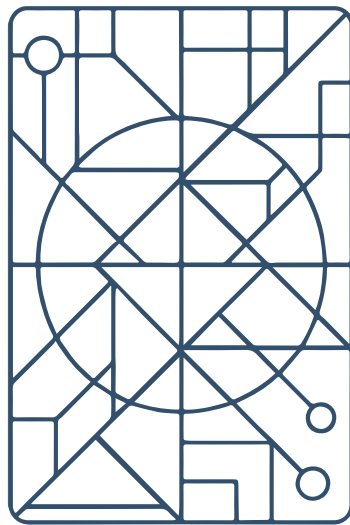

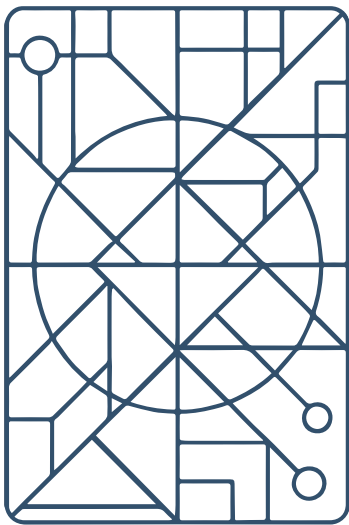

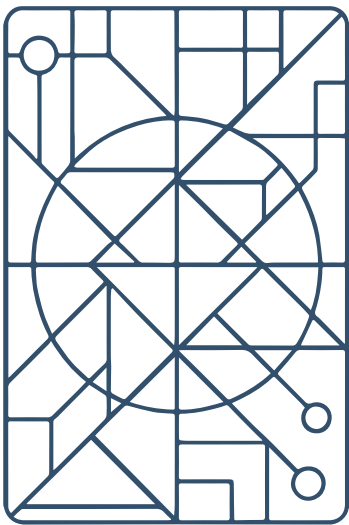

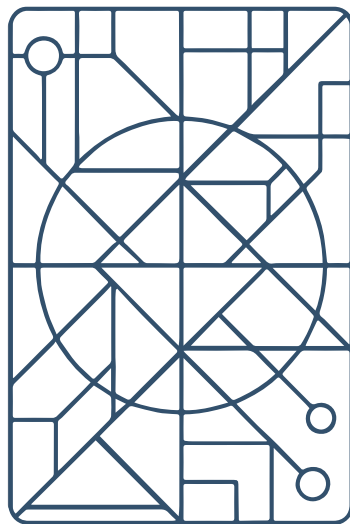

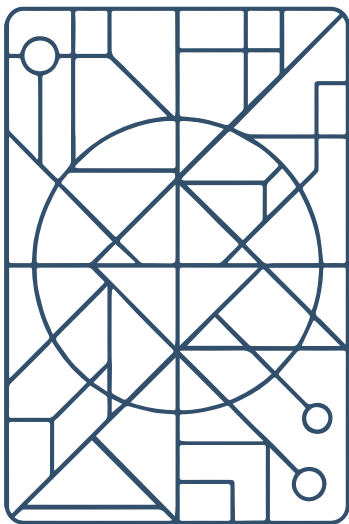

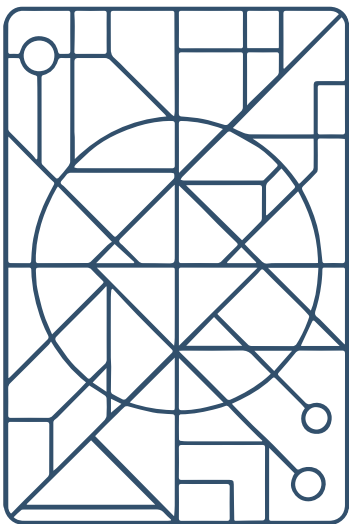

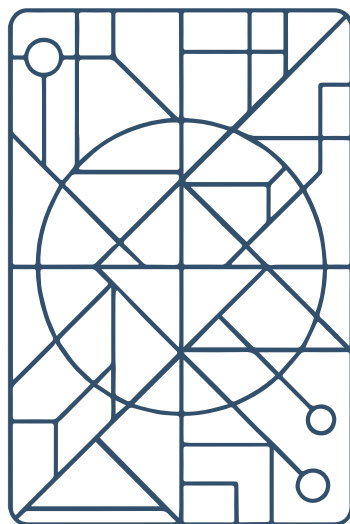

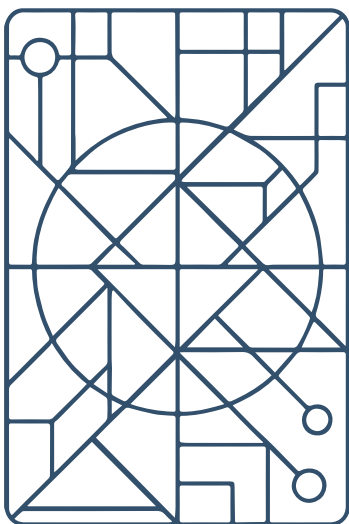

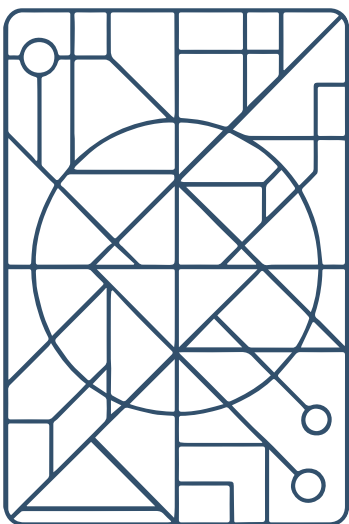

How many animals are connected to **Eric** within two hops?

How many animals are connected to **Selah** within two hops?

How many animals are connected to **Cairo** within two hops?

Did **Della** and **Zoey** interact?

Did **Cohen** and **Cairo** interact?

Did **Otis** and **Naya**
interact?
